EMPLOYEE CONFIDENTIALITY STATEMENTS

I, _____, understand the policies of the Company on the confidentiality of our patient's health care information in written, unwritten, or electronic form. I understand that this information belongs to the patient and I am only providing care and service and must guard the information appropriately. This includes, but is not limited to, keeping patient health care information secure, private and out of public view, not discussing patient-specific issues and information in public areas, and protecting computer data by logging off work stations when not in use. I acknowledge that I have been trained on the legal obligations to protect the privacy of individually identifiable health information that we create, receive, or maintain as a health care provider. I pledge to abide by HIPPA'S PRIVACY RULES and by any state and/or federal law that provide greater protection on rights to patients.

I hereby agree and pledge that I will access only the information in any manner for me to perform my responsibilities. I agree not to use, disclose or communicate any patient information in any manner whatsoever other than minimum necessary for the provision of our services. I understand that all patient health care information will be released only to those who have a need to know and have signed a confidential agreement, to business associates with signed contracts and/or to individuals or organizations with signed authorization for release. If I have any doubts, prior to release any information, I will discuss my concerns with the Management.

I also understand the unauthorized use or disclosure of protected health care information may result in disciplinary actions up to and including termination of employment.

I understand that my obligation, as outlined above, will continue after my employment or association with the Company ends and that should I violate patient confidentiality, appropriate sanctions will be taken.

My signature below attests to the fact that I have read, understand and agree to abide by the terms of agreement.

CONFIDENTIALITY OF PATIENT AGREEMENT

By accepting employment with the Company you have obligated yourself to carefully retain from discussing any patient's condition or personal affairs with anyone outside the agency, unless expressly authorized to do so. Do not pass on medical information to patients and visitors unless you have been instructed to do so by your supervisor. In addition, all information, see or heard regarding patients, directly or indirectly, is completely confidential and is not to be discussed, even with your family. Your job as an employee requires that you govern yourself by high ethical standards. Failure to recognize the importance of confidentiality is not only a breach of professional ethics, but can also involve an employee in legal proceedings. Information about patients or the agency is not to be given to media. This is essential for protection of both the patient and the Company. Agencies are bound by very strict laws regarding the release of information concerning patients.

Note: Employees must have a current 2 step PPD skin test 90 days before employment or within 2 weeks from hire. PPD skin test is read within 48-72 hours of testing. The 2 step method is completed within 21 days from the first reading. Anyone who has a positive skin test has to have a negative chest x-ray before start of active duty. Negative result employees will be tested once a year using the one step method. Positive PPD employees with a negative x-ray need to fill out a health form annually to report and signs and symptoms related to the TB program. Any problem or question has to be directed to the Infection Control Coordinator. Negative PPD's may be slightly red or bruised but will not be significantly raised and the mark will be less than 5mm in diameter. Positive PPD's will be red, raised and have a wheal greater than 5mm in size. If you think you may see a reaction, using a ballpoint pen, start from the periphery of the test site, and move toward the center. The pen will usually stop at the edge of the reaction site, making measurement easier. Remember, induration is measured, not the redness.

DECLINATION FORM***

(Page 1 of 4)

Rule: (77 Ill. Adm. Code 956)

Title: Health Care Employee Vaccination Code

Effectivity: May 19, 2010

Summary: These rules are part of the Illinois Department of Public Health's efforts to combat influenza. The rules implement Public Act 96-0823, which amended the Department of Public Health Powers and Duties Law to authorize the Department to require any facility licensed by the Department to implement an influenza vaccination program that ensures that employees are offered the opportunity to be vaccinated against seasonal influenza and other novel/pandemic influenza viruses as vaccines become available. The rules will provide health care settings with procedures to implement employee vaccination programs for each influenza season. The 2009-2010 influenza season presents the potential for the simultaneous circulation of both seasonal influenza viruses and the pandemic H1N1 strain. Seasonal and pandemic influenza places a great demand on the health care delivery system by making many people ill over a short period of time, so that every available health care worker may be necessary to provide care. Health care personnel who do not provide direct care must also be protected from influenza, because their work is essential to the efficient and effective delivery of health care. In addition, exposed health care personnel themselves can transmit the disease. Many professional organizations, such as the Centers for Disease Control and Prevention (CDC), the Joint Commission for the Accreditation of Health Care Organizations (JCAHO), and the National Foundation for Infectious Diseases, endorse the universal, annual vaccination of health care workers and health facility employees. The purposes of these rules are to increase vaccination rates, to reduce the incidence of illness among health care workers, and to reduce transmission rates in the population of the State.

**Section
956.30**

Beginning with 2010 to 2011 influenza season, each health care setting shall ensure that all health care employees are provided education on influenza and are offered the opportunity to receive

seasonal, novel and pandemic influenza vaccine, in accordance with this Section, during the influenza season (between September 1 and March 1 of each year), unless the vaccine is unavailable (see subsection (e))

- a) Each health care setting shall notify all health care employees of the influenza vaccination provisions of this Part and shall provide or arrange for vaccination of all health care employees who accept the offer of vaccination. Each health care setting shall provide all health care employees with education about the benefits of influenza vaccine and potential consequences of influenza illness. Information provided shall include the epidemiology, modes of transmission, diagnosis, treatment and non-vaccine infection control strategies.
- b) Each health care setting shall develop and implement a program that includes the following:
 - 1) A plan to offer seasonal, pandemic or any other influenza vaccine.
 - 2) The time frame within which health care employees will be offered vaccination; and
 - 3) Any required documentation relating to the health care employee vaccination requirement of this Part.
- c) **Declination of Vaccine**
 - 1) Health care employees may decline to accept the offer of vaccination for reasons including the following:
 - A) The vaccine is medically contraindicated, which means that administration of influenza vaccine to the person would likely be detrimental to the person's health;
 - B) Vaccination is against the person's religious beliefs;
 - C) The person has already been vaccinated; or
 - D) For any other reason's documented by the person as the basis of the refusal.

- 2) Health care employees who decline vaccination for any reason indicated in subsection (c)(1) shall sign a statement declining vaccination and certifying that he or she received education about the benefits of influenza vaccine.
- d) Unavailability of Vaccine. A health care setting shall not be required to offer influenza vaccination when the vaccine is unavailable for purchase, shipment or administration by a third party, or when complying with an order of the Department that restricts the use of the vaccine. A health care setting shall offer to provide or arrange for influenza vaccination for health care employees as soon as the vaccine becomes available.
- e) Documentation
 - 1) Each health care setting shall maintain a system to track the offer of vaccination to health care employees. The system shall include documentation that each person either accepted the offer or declined the offer by signing a declination statement pursuant to subsection (c)(2).
 - 2) If a health care setting is unable to provide or arrange for influenza vaccination for health care employees who wish to be vaccinated, the reasons why the vaccination could not be provided or arranged for shall be documented.
 - 3) Individual declination statements should be handled in a manner that ensures individual confidentiality.
 - 4) Documentation shall be maintained for at least three years.
- f) Health care settings may choose to develop and implement more stringent influenza vaccination policies, strategies or programs designed to improve health care employee vaccination rates than those required by this Part and that are consistent with existing law and regulation.

_____ I do not wish to say why I
decline.

I acknowledge that I am aware of the following facts:

- Influenza is a serious respiratory disease that kills, on average 36,000 Americans every year.
- Influenza virus may be shed for up to 48 hours before symptoms begin, allowing transmission to others.
- Up to 30% of people with influenza have no symptoms, allowing transmission to others.
- Influenza virus changes often, making annual vaccination necessary. Immunity following vaccination is strongest for 2 to 6 months.
- I understand that influenza vaccine cannot transmit influenza. It does not, however, prevent all disease.
- I have declined to receive the influenza vaccine for the _____ (Year) season. I acknowledge that influenza vaccination is recommended by the Center for Disease Control and Prevention (CDC) for all health care employees to prevent infection from and transmission of influenza and its complications, including death, to patients/residents/clients, my co-workers, my family and my community.

**I have read and fully understand the information on this
